RESEARCH & PUBLICATIONS

Research

1R01 MH074707 (PI: Lori Altshuler MD) (2006 to 2012)

National Institute of Mental Health

Bipolar II Depression: Lithium, SSRI or the Combination

Goal: to compare three treatments (sertraline monotherapy, lithium monotherapy, or sertraline plus lithium) in a randomized, blinded fashion to determine optimal treatment (efficacy and safety) for bipolar II depression

1R01MH084955 (PI: Lori Altshuler MD) (2009 to 2014)

National Institute of Mental Health

Mapping Brain Structure to Function in Euthymic Subjects with Bipolar Disorder

Goal: To compare brain functional deficits in persons with bipolar disorder (observed during the performance of neuropsychological tasks during functional MRI) to gray and white matter volume data obtained from structural MRI.
