Research

- Pre-existing Hypertension in Intracerebral Hemorrhage Jun 2017 to Jun 2018
 - Retrospective review of prospective database to investigate how markers of preexisting hypertension affect presentation characteristics and severity of intracerebral hemorrhage.
- Low Grade Glioma Outcomes for Upfront Adjuvant or Observational Therapy May 2017 to May 2018
 - Researched and wrote protocol for a retrospective national review of low-grade glioma patients.
- Rochester Victory Alliance (HIV Vaccine Trials Network) Aug 2014
 - Designed and analyzed a community awareness survey for recruitment and advertisement
 - Engaged the Rochester community to raise awareness of HIV vaccine research efforts.
- University of Hong Kong State Key Lab of Brain & Cognitive Sciences Aug 2013 to June 2014
 - Wrote synopsis of fMRI theory, methodology, limitations and potential
 - Developed guidepost paper for future lab studies on exercise, language and neurogenesis
 - Presented on semantic vs. conceptual organization of language in the brain
 - Completed study of Whorfian effects on temporal perception in English and Mandarin speakers
- Research Assistant, University of Pennsylvania School of Medicine June to Oct 2011
 - Investigated the relationship of complementary and alternative medicine and benefit finding in cancer patients
